DERMABASE™ CREAM
Oil-In-Water Emulsion Cream Base

Applications
Dermabase accepts the incorporation of a wide variety of agents. Dermabase can also be used alone to alleviate dry skin conditions, particularly when a water washable base is indicated.

How to Use
• Using a levigating slab and a spatula, slowly and evenly disperse the selected medicinal agent into a small amount of Dermabase to form a smooth paste.
• Add increasing amounts of Dermabase by geometric dilution until the desired concentration is achieved.

Properties
Dermabase is a washable, unscented, oil-in-water emulsion cream base. The preservatives used in Dermabase allow incorporation of a wide variety of agents while maintaining pharmaceutical elegance and integrity. Dermabase may be successfully thinned by adding water to produce a lotion.

Ingredients
Purified water, mineral oil, petrolatum, cetostearyl alcohol, propylene glycol, sodium lauryl sulfate, isopropyl palmitate, imidazolidinyl urea, methylparaben and propylparaben

Specifications
Appearance: Smooth, white, water-washable cream
Odor: Slight, pleasant odor
Water Content: Approximately 55%

### 3% SULFUR IN Dermabase

<table>
<thead>
<tr>
<th>Sulfur, precipitated</th>
<th>3%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dermabase</td>
<td>q.s.</td>
</tr>
</tbody>
</table>

**Compounding Instructions:**
1. Wet the sulfur with a small amount of glycerin.
2. Incorporate Dermabase by geometric dilution, levigating each addition until uniform.

### 5% PROGESTERONE IN Dermabase

<table>
<thead>
<tr>
<th>Progesterone Powder</th>
<th>5%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dermabase</td>
<td>q.s.</td>
</tr>
</tbody>
</table>

**Compounding Instructions:**
1. Levigate progesterone powder with a small amount of glycerin.
2. Incorporate Dermabase by geometric dilution, levigating each additional until uniform.

### TESTOSTERONE PROPIONATE 2% CREAM

<table>
<thead>
<tr>
<th>Testosterone Propionate</th>
<th>2 gm</th>
</tr>
</thead>
<tbody>
<tr>
<td>Peanut Oil</td>
<td>20 mL</td>
</tr>
<tr>
<td>Purified Water</td>
<td>8 mL</td>
</tr>
<tr>
<td>Dermabase</td>
<td>q.s. 100 gm</td>
</tr>
</tbody>
</table>

**Compounding Instructions:**
1. Dissolve testosterone propionate in the peanut oil.
2. Gently heat Dermabase until softened, then add peanut oil/testosterone propionate mixture.
3. Add purified water and mix well.

### 3% SALICYLIC ACID IN Dermabase

<table>
<thead>
<tr>
<th>Salicylic Acid</th>
<th>3%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dermabase</td>
<td>q.s.</td>
</tr>
</tbody>
</table>

**Compounding Instructions:**
1. Mix the salicylic acid with a small portion of Dermabase.
2. Continue to add Dermabase via geometric dilution levigating each addition until smooth and uniform.

---

**Contraindications**

Dermabase is contraindicated in persons who have shown hypersensitivity to any of the listed ingredients.
